(1) "Seismic retrofit technologies.	ting components" means	seismic retrofitting improven	nents and improver	ments utilizing earthqual	ke hazard mitigation	
	ting improvements" mean	s retrofitting or reconstruction	on of an existing be	uilding or structure, to a	bate falling hazard	

(3) "Improvements utilizing earthquake hazard mitigation technologies" means improvements to existing buildings identified by a local government as being hazardous to life in the event of an earthquake. These improvements shall involve strategies for earthquake protection of structures. These improvements shall use technologies such as those referenced in Part 2 (commencing with Section 101) of Title 24 of the California Building Code and similar seismic provisions in the Uniform Building Code.

5 and 6 of the Uniform Code for Building Conservation of the International Conference of Building Officials.

from structural or nonstructural components of any building or structure including, but not limited to, parapets, appendages, cornices, hanging objects, and building cladding that pose serious danger. "Seismic retrofitting improvements" also means either structural strengthening or providing the means necessary to resist seismic force levels that would otherwise be experienced by an existing building or structure during an earthquake, so as to significantly reduce hazards to life and safety while also providing for the substantially safe ingress and egress of building occupants during and immediately after an earthquake. "Seismic retrofitting improvements" does not include alterations, such as new plumbing, electrical, or other added finishing materials, made in addition to seismic-related work performed on an existing structure. "Seismic retrofitting" includes, but is not limited to, those items referenced in Appendix Chapters

THE EVOLUCION EXPIRES LIDON CHANCE IN OWNERSHIP OF THE PROPERTY

THIS EXCLUSION EXPIRES UPON CHANGE IN OWNERSHIP OF THE PROPERT	IY.				
CERTIFICATION
