☐ YES ☐ NO The property owner, primary co	ontractor, civil	or structural en	gineer, or architect I	nas certified to the
building department those portion				
by Revenue and Taxation Code section 74.5(b)(2).				
Section 74.5 of the Revenue and Taxation Code excludes from assessment that portion of an existing structure that consists of the construction and reconstruction of seismic components.				
In order to receive the exclusion, this claim form must be a All documents necessary to support the exclusion must be completion of the project.				
The property owner, primary contractor, civil or structural	engineer, or ar	chitect shall certify	v to the building depar	tment those portions
of the project that are seismic retrofitting components, as	defined by Rev	enue and Taxation	Code section 74.5(b)	(2). Upon completion
of the project, the building department shall report to the	Assessor the c	osts of the portion	is of the project that a	re seismic retrofitting
components.				
For purposes of section 74.5				
<ol> <li>"Seismic retrofitting components" means seismic retro technologies.</li> </ol>	fitting improvem	ents and improver	ments utilizing earthqua	ake hazard mitigation
(2) "Seismic retrofitting improvements" means retrofitting or reconstruction of an existing building or structure, to abate falling hazards				
from structural or nonstructural components of any building or structure including, but not limited to, parapets, appendages, cornices,				
hanging objects, and building cladding that pose serious danger. "Seismic retrofitting improvements" also means either structural				
strengthening or providing the means necessary to resist seismic force levels that would otherwise be experienced by an existing building or structure during an earthquake, so as to significantly reduce hazards to life and safety while also providing for the substantially				
safe ingress and egress of building occupants during and immediately after an earthquake. "Seismic retrofitting improvements" does				
not include alterations, such as new plumbing, electrical, or other added finishing materials, made in addition to seismic-related work				
performed on an existing structure. "Seismic retrofitting" includes, but is not limited to, those items referenced in Appendix Chapters 5 and 6 of the Uniform Code for Building Conservation of the International Conference of Building Officials.				
(3) "Improvements utilizing earthquake hazard mitigation technologies" means improvements to existing buildings identified by a local				
government as being hazardous to life in the event of an earthquake. These improvements shall involve strategies for earthquake				
protection of structures. These improvements shall us 101) of Title 24 of the California Building Code and sim				mencing with Section
